

Need Help With Registration?

We provide assistance in office with the MMCC registration at no additional cost!

Process

Step 1:

Register with the State for Your MMCC Card

To get started, you must first register with the [Maryland Medical Cannabis Commission \(MMCC\)](#). The MMCC is responsible for verifying Maryland state residency and issuing medical cannabis IDs.

What you will need to register:

- Registration fee (\$50 payable by card only)
- Valid email address
- Photo ID
- If your address has recently changed, you will also need to provide two proofs of address.

Once your registration has been processed, the MMCC will send an approval email. This email will also contain an MMCC identification number, which will be important in the next step.

May take up to 3-4 Weeks until registration approval.

Step 2:

Consult with a Certifying Health Provider that can get you certified for your MMCC Card.

The second step is to consult with a certifying health provider. Rachel Friend-Lantz, CRNP can perform your consultation. A medical cannabis consultation is much like a medical visit. Our licensed certified nurse practitioner Rachel Friend-Lantz will consult with and certify patients.

What you will need to get certified:

- Certification fee (see our pricing & schedule an appointment)

- Photo ID
- Medical documentation
- Your MMCC identification number issued by the MMCC

Once you have been certified, the MMCC will mail your medical cannabis ID card. In the meantime, you may visit a dispensary with your MMCC Certification or a temporary ID card (printable from your MMCC onestop patient portal).

Step 3: Visit A Dispensary

The final step is to visit a dispensary. Once you have obtained both your registration and certification, you can now shop at local dispensaries.

It is important to note that medical cannabis treatment is a personalized journey. Medical cannabis patients have the freedom to tailor their medicines in a unique way. We recommend brushing up on some cannabis basics before your first visit to a dispensary.

Here is what you will need on your first visit to a dispensary:

- Photo ID
- MMCC ID card or MMCC Certification

Medical Cannabis Certification FAQ

Cost:
